CONTENT

INVITED LECTURE

- Baker V.R.* Extreme Events and Catastrophism in Geomorphology: Some Historical and Philosophical Perspectives 9

PLENARY SESSION

- Carling P.A.* Catastrophic Deposition of Gravel from Outbreak Floods 12
- Duszyński F., Migoń P.* Catastrophic or Gradual Evolution of Cluffed Escarpments in Tablelands? Insights from a Sandstone Tableland in SW Poland 13
- Fort M., Adhikari B.R., Stolle A., Schwanghart W., Korup O.* Catastrophic Mountain Wall Collapses in the Nepal Himalayas: A Review, with Focus on Pokhara Valley 15
- Herget J.* Reconstruction of the Pleistocene Outburst Floods in the Altai-Mountains 18
- Komatsu G., Baker V.R., Arzhannikov S.G., Gallagher R., Arzhannikova A.V., Murana A., Oguchi T.* Catastrophic Flooding, Paleolakes and Late Quaternary Drainage Reorganization in Northern Eurasia 19
- Nanson G.C., Huang H.Q.* Catastrophism and the Principle of Least Action: An Oxymoron or Rapid Flow Adjustment Towards a State of Stationary Equilibrium? 22

GEOMORPHOLOGICAL HAZARDS AND CATAclySMIC EVENTS, PAST AND PRESENT

- Agatova A.R., Nepop R.K., Bronnikova M.A., Shorkunov I.G.* Common Features of the Pleistocene Landscape Development in the SE Altai and SW Tyva (from the Concept of the Outburst Floods of Ice-Dammed Lakes) 25
- Amato G., Fubelli G.* Monitoring Systems to Evaluate Rainfall Threshold Triggering Mid-Deep Slow Landslides 28
- Baker, V.R.* The Role of Cataclysmic Flooding in Landscape Evolution 30
- Baryshnikov, G., Panin, A.* Cataclysmic Debris Flood in the Biya River Valley and Formation of the Teletskoye Lake (Russian Altai) 35-40 ka BP 33
- Bozzano F., Della Seta M., Martino S.* Inherited Landslide Risk in the Uplifted Southwestern Tyrrhenian Calabria (Italy): Constraints from Modeling the Quaternary Slope Evolution Through Geomorphic Markers 36
- Cripps J.E., Brennand T.A.* Late-Glacial Outburst Floods from the Nicola Valley, Southern Interior British Columbia 37
- Della Seta M., Esposito C., Evans S.G., Troiani F., Scarascia Mugnozza G., Sterpa S.* Detection of Large Slope Instabilities by Coupling Remote Sensing and Quantitative Geomorphic Analyses at the Basin-Scale: An Example from the Central Karakorum Massif (Pakistan) 40
- Dewitte O., Monsieurs E., Jacobs L., et. al.* Landslide Hazard In The Equatorial Region Of The Western Branch Of The East African Rift: Towards A Regional Assessment 43
- Draidia S., Ndahimana H., Habimana C., Fagel N., Dewitte O., Ntenge A-J., Ndayensenga A., Elouahabi M., Trefois P., Kervyn F., Havenith H-B.* Landslides in Central Africa: From Deformation Mechanisms to Evolution Processes – Cases Studies from Rwanda and Burundi 44
- Frumkin A.* Salt Rock Morphology Reflecting Extreme Environmental Events: The Dead Sea Basin Example 44

<i>Greenbaum N., Schwartz U., Benito G., Porat N., Cloete G.C., Enzel Y.</i> Paleohydrology of Extraordinary Floods Along the Swakop River at the Margin of the Namib Desert	46
<i>Kittel P., Krąpiec M., Petera-Zganiacz J., Piotrowska M., Rzepecki S., Schellner E., Twardy J.</i> The Record of Catastrophic Flood in the Roman Period in Koło Basin (Central Poland)	47
