Ответственные редакторы:

д. б. н., проф. А.И. Шмаков
к. б. н., Т.М. Копытина

Редакционная коллегия:

д. б. н., проф. У. Бекет (Монголия), проф. Р. Виане (Бельгия),
проф. К. Кондо (Япония), к. б. н. М.Г. Куцев (Барнаул),
д. б. н., проф. Т.А. Терёхина (Барнаул), докт. Н.В. Фризен (Германия).

П 78 Проблемы ботаники Южной Сибири и Монголии: сборник научных статей по материалам XVI международной научно-практической конференции (5–8 июня 2017 г., Барнаул). – Барнаул: Концепт, 2017. – 344 с.

ISSN 2313-3929

Сборник содержит научные статьи по материалам шестнадцатой международной научно-практической конференции «Проблемы ботаники Южной Сибири и Монголии» по следующим направлениям: геоботаника и ресурсоведение; изучение растительного покрова Алтая, Сибири и Монголии; молекулярные методы исследования растений и хемосистематика; морфология и биология отдельных видов; охрана растений; роль ботанических садов в изучении и сохранении биоразнообразия растений; флора Южной Сибири, Монголии и сопредельных государств; экология растений и фитоиндикация; систематика отдельных таксонов.

Для специалистов в области ботаники, экологии, охраны природы и всех интересующихся вопросами изучения, охраны и рационального использования растительного мира.

Мероприятие проведено при финансовой поддержке Российского фонда фундаментальных исследований, проект № 17-04-20173.
